

ARC East of England Fellowship Programme

Developing research and implementation skills
in the voluntary, health and social care sectors.

ARC East of England Fellowship Programme

128 fellowships

have been awarded since
2010

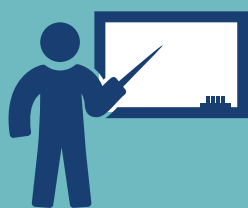

Funding

Via backfill for a
day a week

The ARC Fellowship was a key stepping stone in starting my clinical academic career and opened doors to further projects and funding. Without the fellowship, I wouldn't be where I am today."

Allison Bentley, Former ARC Fellow

Workshops

facilitated by research and
implementation experts

Showcase

your findings to an
invited audience

Supported

by a specialist
academic/clinical supervisor

I was supported and guided through barriers throughout. I have really grown in my work because of this."

Bryony Dale, Former ARC Fellow

What is ARC East of England?

NIHR Applied Research Collaboration (ARC) East of England brings together four regional universities, health and social care professionals, local authorities, and our local communities to address through research, population health problems affecting our region.

The ARC Fellowship offers clinicians, health and social care practitioners, voluntary sector staff, and NHS managers across the East of England an opportunity to develop skills and an understanding of research or research implementation methodologies. The programme includes teaching sessions, peer support through Action Learning Groups, and specialist supervision.

We currently have two programmes available:

- **Research Fellowships**

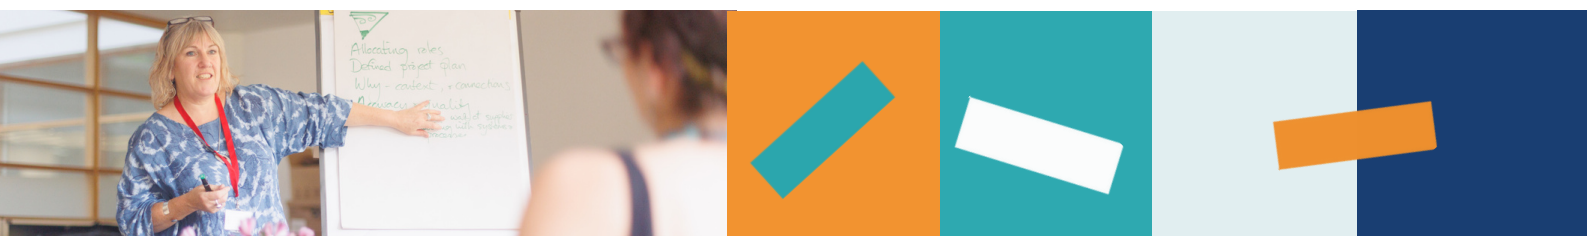

Which aims to develop an understanding of the research environment.

- **Implementation Fellowships**

Which emphasises the importance of relationships between people and organisations when implementing research.

In these programmes, we fund a fellow for one day a week for one year to a maximum of £12,500 (via backfill to the fellows employing organisation) to undertake a research or implementation project.

Visit arc-ee.nihr.ac.uk/training-development/arc-research-and-implementation-fellowships for more information.
