

Logic model' development/review

NIHR ARC EOE - PEDHSC Sept 2021

Note: End of Year 2, and forecasting/looking ahead, Year 3-5

Inputs	Activity	Mechanism for change	Output	Shorter term outcomes [over Year 1, into Year 2]	Medium term outcomes [during years 2-3]	Longer-term outcomes (impact) [during years 4-5 and beyond]
<p>People: <u>Research team:</u> <u>Support team:</u> <u>Members of PEDHSC:</u></p> <p>Strategic: (PEDHSC is a cross-cutting ARC theme) <u>Links with other ARC themes</u></p> <p><u>Links with regional and national groups</u></p> <p>Funding: <u>Internal ARC funding streams / calls</u></p>	<p><u>Comms</u></p> <p><u>Meetings, governance and information sharing</u></p> <p><u>Research questions/ priority topics and questions established</u></p> <p><u>Work with stakeholders and partners</u></p> <p><u>PPIE</u></p> <p><u>Research projects</u></p> <p><u>Capacity building</u></p>	<p>Relationships/connections</p> <p>Better understanding of collaborative possibilities</p> <p>Drawing on engagement with the PiFs</p> <p>Embedding of public health intelligence</p> <p>Willingness to engage and share information</p> <p>Being able to respond to partners research needs / project requests</p> <p>Engaging in methodological developments around success indicators for</p>	<p>Cross PiF engagement activities</p> <p><u>Larger grant applications (>£300K)</u></p> <p><u>Smaller grant applications</u></p> <p><u>Publications</u></p> <p><u>Themed peer reviewed commentaries / opinion pieces</u></p> <p><u>conference /other presentations</u></p>	<p>Priorities: Income generation / cost recovery (grant funding)</p> <p>Demonstrated commitment to the PiFs</p> <p>Research active in at least 2 PiFs at any one time</p> <p>PiF involvement in ARC led bids</p> <p>Closer partnership working with local public health teams</p>	<p>Informing local research agendas (e.g. LA, STP/ICS, partner organisations)</p> <p>Collaborative publications and outputs with partners (min. of 2)</p> <p>Greater awareness of ARC in PiFs</p> <p>Partners know how to engage with the ARC, established ways of collaborating</p>	<p>Invited to participate in community led bids (min. of 2)</p> <p>Changes to local policy and practice informed by our research</p> <p>Capacity building Min. of 2 Doctoral awards+ associated outputs</p> <p>Local authorities and PH teams benefiting from no cost (to them) methodological /research expertise and help with implementation (documented examples)</p> <p>Collaborative co-</p>

<p><u>Funding from other sources / external funding applications</u></p>		<p>interventions and policy</p> <p>Engage with colleagues working with big data to explore ways of collaborating</p> <p>Engaging in cross ARC collaborations</p> <p>Yearly review and update on theme logic model, strategy and priorities</p>	<p>A report of each ARC funded study</p> <p>A lay summary of each ARC funded study</p>	<p>A PPIE co-applicants on funding bids – on every larger funding bid</p> <p>Maintaining and building engagement capacity to support our work</p> <p>Building big data and quantitative approaches into our funding bids</p> <p>Health economic component built into projects and funding bids</p> <p>Feeding into intersecting prevention agendas and priorities to better align with the region</p>	<p>People from PIFs applying for ARC fellowships</p> <p>Increased diversity of lived experience within PPIE representatives collaborating with the theme</p>	<p>produced publications with partner organisations (min. of 3)</p> <p>Learning from EoE transferred to other ARC regions</p> <p>Value of PEHDSC informs ARC 2.0/beyond 2024</p>
