

An overview:

ARC EoE Fellowship Programme 2022

ARC EoE Fellowship Programme

How to apply

How it works:

- Funding for 1 day a week for a year to a maximum of £12,500 (via backfill)
- Carrying out a project under supervision of an ARC senior researcher
- Attend teaching workshops & action learning sets

Main aims:

- Making sense of the research world
- Promoting the use of research-based evidence in healthcare and social care organisations

Who are the fellowships for:

The ARC Fellowship is aimed at clinicians, health & social care practitioners, voluntary sector staff and NHS managers across the East of England. It is for those who would like to work at the interface of research and practice; develop an understanding of the research environment; and develop skills in research methodology, service redesign, change management and implementing evidence-based improvements into practice.

Two fellowship opportunities:

ARC Research Fellowship

The research fellowship is aimed at people working in the voluntary sector and health and social care professionals who are keen to develop an understanding of the research environment, and to develop skills in research methodology, service redesign and change management.

ARC Implementation Fellowship

A central part of the strategy is the ARC Implementation Fellowship, which is a tailored programme for health and social care staff interested in implementation. This fellowship emphasises the importance of relationships between people, teams and organisations when implementing research.

Identify area of interest & **contact relevant theme lead** as early as possible

Discuss with Theme Lead if the project is **suitable** for a fellowship

Identify a **supervisor and write proposal** ready for applying (support is available for this)

Access the **application form and guidance** on our website

Submit your application by
30th November 2021

If shortlisted, **attend an interview**
January 2022

Success?
Start in April 2022

Professor Stephen Barclay

email: SIGB2@medschl.cam.ac.uk

Inclusive Involvement in Research for Practice-led Health & Social Care

Co lead: Professor Fiona Poland

email: F.Poland@uea.ac.uk

Who will support you?

In our ARC fellowship scheme, fellows will be supervised by a senior researcher from one of our ARC research themes.

Our researchers aim to improve care by undertaking applied research which supports frontline NHS and Social Care staff to change practice and investigate whether care and treatments are effective and provide good value.

Unsure where your research project fits?

Contact the ARC office (arcoffice@cpft.nhs.uk) who will guide you in your application process.

The ARC Fellowship has been running since 2010. Since then over 100 fellowships have been awarded. All of our fellows have come from a wide range of clinical and non-clinical backgrounds – Consultant Psychiatrists, NHS managers, Clinical Psychologists, Consultant Clinical Neuropsychologists, General Practitioners, Registered Nurses, Dieticians and Pharmacists, from all across the East of England.

The deadline for applications is 30 November 2021. For more information on how to apply, visit our website [here](#). Email Emma.dickerson@cpft.nhs.uk with any questions.
