

## Bringing together health and social care professionals, researchers, and the communities we serve.

Ensuring future research meets a wide range of health and social care needs, from young children to frail elderly.

### Working with under-represented communities across the East of England with a focus in:

- City of Peterborough and Fenland
- Great Yarmouth and Waveney
- Stevenage
- Thurrock

### Capacity building

- Supporting frontline staff to change practice through research
- Training for health and social care professionals
- ARC Fellowship programme, PhDs and Masters degrees

### Public and Community Involvement, Engagement and Participation (PCIEP)

- Making sure our programme is shaped by the people it is designed to benefit

### Implementation

- Building communities of practice
- Using evidence to make positive change
- Quality improvement techniques and evaluation
